Exhibit A

The aerial, still photos were taken via drone of the Square and Courthouse during the day, as the sun set, and shortly after sunset.

The two, aerial videos were taken from a drone and depict a complete circuit of the Square. I used an intelligent flight mode on my drone in which I inputted the Courthouse as a point of interest and had the drone do a 360-degree flight around the Courthouse. The resulting video depicts the entirety of the Square with the Courthouse as the central point of interest. The day-light video was taken on or around 4:00pm, and the other video was taken on or around 5:25pm.

The still photos from the ground include the following:

- The Courthouse, its grounds and surrounding buildings on the Square, including City Hall, which is on the North East corner of the Square, Square Books, which is on the South side of the Square, Off Square Books, which is on the South East part of the Square, and Tangos, which is one block North West of the Square.
- I took a photo in front of Nelson's Department Store, which is on the East side of the Square. This photo captures the East sidewalk of the Square and the Courthouse.
- The photos of the Courthouse grounds depicting the flag poles and the historical marker are the north lawn.
- The south lawn of the Courthouse grounds includes the confederate monument.

Through my photos and videos of the Square and Courthouse, I captured the Courthouse grounds and the commercial area of the Square from all sides.
